### Course Overview

- **Why choose this course?**

This two-day practical French polishing course, delivered by a professional polisher with over 35 years' experience in the trade, is designed for those who are new to staining and re-finishing and those who wish to gain hands-on experience in this specialist field of furniture re-finishing and furniture restoration. The course has been designed to complement the skills of furniture makers/restorers, as well as those who buy or own antique furniture that needs bringing back to life.

The course has an emphasis on the sound understanding and use of traditional French polishes and stains and "touching-in" techniques, including the selection and use of finishing materials.

All equipment, materials and sample boards are provided, but students will need to bring along one or two small items of furniture to re-finish. Suitable items include a side table, chair, stool or box - you will be able to work on one item whilst the other finishes drying. This specialist course is aimed at students with no previous experience or limited knowledge of French Polishing and re-finishing - time is allocated for discussion on stains, fillers, bleaches, polishes and waxes.

Small groups ensure plenty of hands-on tuition for every student. Students are also able to try out, test and buy woodworking tools, materials and equipment from Peter's tool shop [www.woodworkersworkshop.co.uk](http://www.woodworkersworkshop.co.uk) with a 5% discount – try before you buy ...

Two-day courses are divided into three disciplines:

- Material identification, preparation and use
- Stripping, staining and colouring up
- French polishing and waxing

- **What will I achieve?**

This course gives students a thorough grounding in the safe and practical use of traditional wood staining and French polishing techniques, through practical demonstrations and hands-on experience. Students work on a personal re-finishing project under expert guidance, ensuring professional results.
